

EasyInventory

**Know where every asset is,
every phase of every election.**

Leave clipboards and spreadsheets behind. EasyInventory is a purpose-built inventory management platform that helps election offices manage election equipment and supplies across storage facilities, transit vehicles, and polling places. Every asset is accounted for, every movement is documented, and every election runs more efficiently.

Capabilities **built for the job:**

Entire Item History

A tamper-proof digital ledger that tracks every move, transfer, and service event across an asset's lifetime. Delivering full accountability and audit-ready compliance.

Asset Maintenance & Lifecycle Management

Track asset service history and automate preventative maintenance schedules within a single dashboard.

Supplies & Consumables

Track hardware, supplies, and consumables; maintain consumable levels through automatic inventory renewal triggers to ensure your operations run without interruption.

Mobile Scanning

Maximize field efficiency by turning any mobile device into a powerful asset tracker. The EasyVote mobile app simplifies complex deployments and returns through immediate visibility and automated workflows.

Reporting & Test Scripts

Electronic testing scripts help eliminate the need for paper forms, manual entry of testing results and equipment identification, ensuring a more efficient and accurate process.

Packaging & Deployment

EasyInventory's built-in rules help to ensure the correct equipment and supplies will be delivered to the right locations every time, while improving chain of custody and security procedures.

EasyInventory: Real-time inventory, zero guesswork

You can be up and running with EasyInventory quickly, with the ability to configure and customize as much as you want over time. To get started, just complete these basic steps:

1

Set Up & Define Inventory

Build a structured inventory foundation by setting beginning inventory level and locations.

2

Intelligent Import

Import your existing inventory from a spreadsheet, including serial numbers, barcodes, purchase dates, etc.

3

Assemble & Deploy

Prepare your equipment packages by scanning item barcodes and security seals, assign to locations, and manage your deployment process.

4

Maintenance & Testing

Create and customize maintenance and testing schedules so nothing gets missed.

Designed for Elections

Affordable and purpose-built to handle the unique demands of election inventory management across all phases of an election cycle.

Flexible & Customizable

Start with the basics and configure as much as you want over time. EasyInventory adapts to your workflow, not the other way around.

The Result: total visibility into every asset, from warehouse to precinct and back, so your office can maintain chain of custody, extend equipment life, and spend less time chasing hardware and more time running elections.

"Before this system, tracking inventory across our locations was a constant struggle. Now I can see exactly what we have, where it is, and what we need before, during and after an election, all in one place. It's made our whole operation more accountable."

Armando Salud-Ambriz, Clerk Recorder/Registrar of Voters, Nevada County, CA
