EasyCampaignFinance

Stop chasing paper filings. Start building trust.

Campaign finance compliance shouldn't cost your office hundreds of staff hours a year. EasyCampaignFinance is EasyVote's browser-based platform that turns candidate filings, disclosures, and public transparency into one seamless digital workflow — built around your state and local requirements, from candidacy to committee closure.

No more manual data entry. No more chasing candidates for missing paperwork. No more late-night scrambles before filing deadline.

Built for every stakeholder:

Candidate Portal

A secure, self-service portal that guides users through every form so nothing is skipped or left blank.

Admin Tools

Full command center for election staff: review, accept, & manage filings with a complete audit trail behind every decision.

Public Access

An open, searchable interface where constituents can view current & archived disclosures.

Tailored to your state, not a generic template. We adapt state and local forms to ensure compliance in the disclosure process. Ensuring that every submission matches your statutes, deadlines, and requirements before you ever log in.

Why one election official made the switch:

"Paper-based filing and manual data entry don't just slow election offices down—they increase the risk of errors, missed deadlines, inconsistent records, and unnecessary administrative work. EasyCampaignFinance digitizes the entire process, helping jurisdictions improve accuracy, reduce costs, and strengthen transparency."

Easy**CampaignFinance:** Core Capabilities

EasyCampaignFinance provides an end-to-end solution for candidate filings, from the start of candidacy through committee closure. Every feature is built to reduce administrative burden while ensuring legal compliance.

Secure Electronic Submission:

Every filing is submitted online, time-stamped, and cataloged automatically, creating an airtight audit trail that helps candidates avoid fines and helps your office prove compliance.

Automated Communication & Notifications:

Send individual or bulk candidate messages. The system also triggers automated alerts for filing deadlines and document status updates (submitted, accepted, or rejected) using custom message templates.

Rules & Auditing Tools:

Staff review filings in a single interface, flag issues instantly, and notify candidates of required corrections — no spreadsheets, no separate email threads.

Detailed Search & Reporting:

Administrators have access to every submission, communication, and fee, making searches and reporting quick and efficient.

Public Display:

Publish reports the moment they are approved. Provide candidates and constituents with real-time, transparent access to current and archived filings. No extra work required.

The Result: A streamlined, accurate, and transparent campaign finance process that reduces administrative burden, strengthens compliance, and gives your staff more time to focus on what matters most.
